

Subspecialty meeting of the International Dermoscopy Society 22nd EADV Congress, Istanbul 2013

Room: Macka hall

Day: Wednesday, 2 October, 2013

Time: 10:15 - 13:15

Title of the session: Dermoscopy update

Chair: Giuseppe Argenziano and Josep Malvehy

Program (14 lectures, 10 min each):

1. Giuseppe Argenziano - Introduction
2. Harald Kittler – Meta-analysis of digital dermoscopy follow-up of melanocytic skin lesions
3. Rainer Hofmann-Wellenhof - Agreement of dermatopathologists in the evaluation of clinically difficult melanocytic lesions: how golden is the 'gold standard'?
4. Iris Zalaudek - Selective sunscreen application on nevi: frequency and determinants of a wrong sun-protective behaviour
5. Susana Puig - Influence of time on dermoscopic diagnosis and management
6. Elvira Moscarella – Multiple primary melanomas: do they look the same?
7. Lidia Rudnicka - Difficult hair cases made easy by trichoscopy
8. Aimilios Lallas - Principles of inflammatory dermoscopy
9. Maria Antonietta Pizzichetta - Negative pigment network: is it a reliable clue for melanoma?
10. Pedro Zaballos - Dermoscopy of adnexal tumors
11. Mariano Suppa - The Italian Euromelanoma Day: evaluation of results and implications for future prevention campaigns
12. Wilhelm Stolz - Dermatoscopy of pigmented lesions of the nipple
13. Holger Haenssle - Dynamic changes in nevi of a patient with melanoma treated with vemurafenib
14. Stephane Dalle - Dermoscopy of lentigo maligna melanoma: report of 125 cases
